#### DIRECTIONS FOR USE

LESCO Tracker is a blue spray indicator dye which is added to the tank after all products have been mixed. It will not effect the performance of turf fertilizers and/or pesticides. This dye is completely water soluble and disperses quickly in agitated tanks.

#### RECOMMENDED APPLICATION RATES

##### TURF

Add LESCO Tracker to the spray tank at a rate of 0.2 to 0.4 oz. per 1,000 sq. ft. or 8 to 16 oz. per acre.

The lower rate can be used on greens-height turf. Longer grass will require higher than recommended rates.

For backpack or hand sprayers, add 2 to 3 oz. to 3 to 5 gallons for spot treatment applications.

##### PEST CONTROL

Use LESCO Tracker to mark termiticide pretreatments; all borate applications where the temporary discoloration of wood is not objectionable and other outdoor pest control uses where indication of a consistent application pattern is desirable.

#### STORAGE AND DISPOSAL

Keep from freezing. Do not re-use empty container. Safety goggles are recommended when handling the concentrate. If product is spilled, contain and absorb with inert material. Dispose of in accordance with local, state, and federal regulations.

#### WARRANTY:

LESCO warrants that this product, when used in accordance with label directions under normal conditions, is reasonably fit for its intended purposes. Since timing; method of application; weather, plant and soil conditions; mixture with other chemicals; and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.

#### DESCRIPTION

LESCO Tracker is a non-hazardous indicator dye added to spray tank mixes to properly identify areas covered with the spray pattern to improve accuracy in applying expensive fertilizers and/or pesticides. The dye is non-toxic, water soluble and will not stain. The temporary color disappears with rain, dew, irrigation or sunlight. This product is inert and will not react with commonly used tank mix products.

#### GENERAL INFORMATION

LESCO Tracker is not for use on food crops. It is not recognized or regulated as a pesticide by the Office of Pesticides and Toxic Substances of the U.S. Environmental Protection Agency according to 40 CFR 180.1001 for use on non-crop vegetation.
